👤 PROFILE

I'm a **mobile and web applications developer** with a deep passion for transforming creative ideas into **powerful and elegant applications** using **Flutter**. I have extensive experience in building **seamless user experiences** and designing **attractive interfaces** that align with the latest design standards.

I specialize in developing **web applications with Flutter** and have expertise in creating **web pages** using **HTML, CSS, and JavaScript**, enabling me to build **fully integrated experiences** that work smoothly across different platforms. My proficiency in **Figma, Adobe XD, and Photoshop** allows me to craft modern designs that enhance the user experience.

Currently, I am working on innovative projects that reflect **the highest standards of performance and quality**. I am always striving to enhance my skills and stay up to date with the latest technologies. With **great adaptability in tackling challenges**, I excel at **working under pressure** to deliver results that exceed expectations.

🎓 EDUCATION

Bachelor's degree in Applied Sciences with a specialization in Computer Technology   2020 – 2024
                                                                                                                          Damascus
Damascus University , Applied College

💼 PROFESSIONAL EXPERIENCE

Freelancer   2020 – 2024
Front End Developer Using Flutter Framework
Freelance Mobile & Web Application Developer I worked as a Freelancer for three years until 2024, starting as an Android app designer, and then expanding into mobile and web application development. This diversity helped me rapidly develop my skills and deliver innovative results that meet client needs. Working under time pressure, I gained significant experience in improving user experience and app performance across various platforms.

Virtual Modern School   2024 – 2025
Front-End Developer and UI/UX Designer
I developed the administrative and educational platform using the Flutter framework, where I was part of a distinguished team and responsible for enhancing the user experience and designing innovative interactive interfaces that efficiently meet the platform's needs. Whether in programming or design, I excelled in delivering innovative solutions that ensure high performance and compatibility across different devices.
