Professional Summary

Flutter Developer with approximately 6 years of hands-on experience in developing cross-platform mobile and web applications through full-time employment, freelance projects, and academic work. Skilled in Flutter, Dart, GetX, Provider, BLoC/Cubit, RESTful API integration, and responsive UI development. Experienced in translating design concepts into functional interfaces, developing educational and management applications, and providing technical support. Adaptable, detail-oriented, and capable of working independently as well as collaboratively within technical teams.

Professional Experience

Flutter Developer & IT Support Specialist, *Pearl Plus & RZR* 11/2025 – Present
Dubai, UAE

- Develop and maintain Flutter applications, improving interface quality and user experience.
- Collaborate with the technical team to resolve application issues and implement UI improvements.
- Deploy web pages and configure domains, URLs, and related settings.
- Provide technical support for printers, Wi-Fi networks, Google accounts, and daily IT operations.
- Handle invoice-related tasks and data export requirements.
- Configure and support biometric attendance systems.
- Coordinate technical tasks and assist with day-to-day operational and technical requirements.
