Professional Summary

UI/UX Designer with hands-on experience designing digital interfaces for mobile and web applications, from initial visual concepts to responsive implementation. Skilled in Figma, including Auto Layout, Components, Variants, and interactive prototyping, with experience building consistent design systems for colors, typography, and reusable components. Familiar with UX research practices, gathering feedback, understanding user needs, and improving interfaces through iteration. Combines a strong visual design foundation with a technical background in Flutter development, enabling effective collaboration between design and development teams.

Professional Experience

Pearl Plus & RZR 11/2025 – Present

IT & Technical Support Specialist | UI Development Support Dubai, UAE

- Collaborate with the technical team on Flutter application development and interface improvements.
- Refine UI elements based on project requirements and feedback.
- Support web deployment, domain configuration, and application updates.
- Coordinate technical requirements and assist with daily IT operations.

Virtual Modern School 08/2024 – 10/2025

UI/UX Designer & Flutter Developer Remote

- Independently conceptualized and designed visual interfaces for educational and administrative platforms.
- Created layouts, visual elements, color palettes, and typography based on project requirements.
- Developed a consistent design system covering colors, typography, and reusable UI components.
- Designed interfaces for student, teacher, and administrative workflows, focusing on clarity and usability.
- Used feedback and practical evaluation to refine interface layouts and improve user experience.
- Implemented responsive interfaces for web and mobile applications using Flutter.
- Collaborated on interface updates, platform improvements, and API integration.

Independent Projects 06/2023 – Present

Freelance Flutter Developer Remote

- Designed and developed interfaces for mobile and web applications across educational, management, and business domains.
- Translated visual concepts into responsive and functional user interfaces.
- Applied consistent layouts and reusable UI elements across application screens.
- Integrated REST APIs and refined interfaces throughout development and maintenance.

Sultan Volunteer Team 01/2022 – 04/2023

Flutter Developer Syria

- Developed responsive Flutter interfaces for mobile and web applications.
- Designed administrative dashboards for volunteers, coordinators, and administrators.
- Implemented role-based navigation and structured interface layouts.
- Maintained visual consistency across application modules.

Education

Bachelor of Applied Sciences in Computer Technology 2020 – 2024
Applied College – Damascus University Damascus, Syria

Design & Technical Skills

UI/UX Design
- UI Design & Interface Conceptualization
- Visual Hierarchy & Layout Design
- Typography & Color Theory
- Responsive Design
- UX Fundamentals & Usability Improvements
- Wireframing Fundamentals
- Interactive Prototyping
- Design Systems & Reusable Components
- User Feedback & Design Iteration

Design Tools
- Figma
- Auto Layout
- Components & Variants
- Interactive Prototyping
- Adobe Photoshop
- Adobe XD

Technical Skills
- Flutter & Dart
- Mobile & Web UI Implementation
- Material Design
- GetX, Provider, BLoC/Cubit
- REST APIs
- Git & GitHub

Professional Skills
- Creative Problem-Solving
- Attention to Detail
- Collaboration & Communication
- Adaptability
- Continuous Learning
